Athens In A Ferment
 Twenty Thousand Greeks Riot Over Proposed Translation of the Gospel.
 Several Revolver Shots Fired at the Premier Who However Escapes.
 Many People Killed and Wounded in Encounters With the Troops.

Athens, Nov. 21.—The agitation against the proposal to translate the Gospels into modern Greek was continued today. Twenty thousand persons assembled around the ruins of the Temple of Jupiter and Olympus, and took part in the demonstration organized by students. A resolution was passed calling on the Holy Synod to excommunicate any person who translated the Gospels into Greek as now spoken. Eight hundred marines were landed to patrol the city. Several collisions occurred and occasional shots were fired. The students still hold the university building.
 During the demonstration following the assembly several shots were fired at M. Thotakis, the Greek premier, but without effect.
 During the encounters between the military and the crowd, seven persons were killed, thirty were severely wounded and many others were slightly wounded.
 Great excitement prevails tonight. Strong military detachments guard the palace and the residence of the Premier. Everywhere anxious groups are discussing the situation. Heartrending scenes occurred when the bodies of the dead were handed over to their relatives. It is reported that armed men have arrived at the university, but the building is still guarded by the students, who are adopting military discipline.
 Opposition deputies appeared on the streets during the day, exciting the rioters by violent language.
 There were no further disturbances during the evening, but it is feared that there will be a renewal of disorder tomorrow. Among those slightly injured are the prefect of police of Athens and the prefect of Attica.

AT TIEN TSIN.
 Military Commanders Decline to Hand City Over to Chinese.
 Peking, Nov. 21.—The military government established over the native city of Tien Tsin continues in effect, the military commanders refusing to yield the collection of taxes to the Chinese. They also decline to submit the question of the control of the native city to the ministers of foreign powers here, holding that a continuance of the military government there is vital to the maintenance of communication between Peking and Taku.
 The ministers apparently regard the question as within their jurisdiction, and some of them are of the opinion that it is impossible, under the terms of the protocol, for foreigners to continue to govern Tien Tsin.
 Korea has secured the premises in Peking long occupied by the United States legation, and will take possession at the expiration of the United States lease next spring.

ENDS FATALITY.
 Accident to Little Berenson Girl Causes Her Death.
 Vancouver, Nov. 21.—(Special)—The 4-year-old daughter of Mr. John Berenson, who was accidentally shot yesterday by a rifle, in the hands of 10-year-old Jesse Dipton, died at 2:30 o'clock this morning. The accident happened in Mr. James Dipton's house. The children were romping from room to room. On entering a bedroom they spied a small rifle, and at once pulled it out and started playing soldier. The rifle was accidentally discharged, the bullet entering the little girl's back and coming out of the abdomen. When the terrified parents entered the chamber poor little Nellie was lying senseless on the floor. She was removed to the hospital, and although three doctors were in attendance, she gradually sank until she died.

GREEN RIVER HOT SPRINGS WASHINGTON
 Two and a half hours from Seattle and Tacoma, on main line of N. P. railway. Special 1-3 round trip fare from Victoria. The most perfectly appointed health and pleasure resort in the entire west. THIRD CONTINGENT.
 Colonel Evans Mentioned as Likely to Be Given Command.
 Ottawa, Nov. 21.—(Special)—There was no meeting of the cabinet today, and consequently no developments in connection with the contingent matter. Major Hamilton Merritt was in the city and had interviews with the Premier and Hon. Dr. Borden. Although the name of Col. Evans, of Winnipeg, is mentioned for command of the contingent, in the event of one being sent, it is simply newspaper talk at far.
 Trooper Tozer is dangerously ill from enteric fever at Sydney. His next of kin resides in Toronto.

ESTIMATE OF NUMBER OF MINERS KILLED IN COLORADO MINE.
 Denver, Nov. 21.—At a late hour today 23 bodies all told have been recovered from the Smuggler Union mine. An attempt was made today to enter the ninth level north, but on account of the density of smoke it was impossible to do so. It is stated by one of the officers of the company that only three or four men are missing, and that the total number of dead will not exceed 25.

Preparing For The Insurgents
 Breastworks Being Thrown Up at Panama in Readiness For Attack.
 Colon, Nov. 21.—The government at Panama is still busy erecting breastworks in the vicinity of the railroad property, in the direction of which the Liberal attack is expected.
 The Mayor of Panama started in a launch belonging to the Canal company yesterday morning to report the state of affairs to General Alban. Since the Mayor's return to Panama, it has been rumored that he found the General at Chorrera, and that it was decided to take the forces back to Panama by land and reinforce the garrison there. Certain sources of information have it that the Canal company's largest launch was loaded by the government last Sunday to convey General Alban and troops toward Chorrera and was sunk on Tuesday near Taboga.
 The political prisoners at Panama have been removed from their usual prison to a safer place of confinement at the farther end of Panama. United States Consul General Hezekiah Judger, Captain Perry of the United States battleship Iowa, and the secretaries of the government held a conference at Panama yesterday. The last named averred that the conductors of the train should have removed armed Liberals to embark on the train at Las Casadas. Captain Perry replied that the government should protect free transit on the Isthmus and ought to have prevented the embarkment of the Liberals.
 Subsequently a letter was sent to the Colombian authorities by United States officials with reference to future action. It is not improbable that the Iowa will land a force to protect transit.

APPEAL DISMISSED.
 Full Court Decision in Centre Star v. B. C. Southern.
 Vancouver, Nov. 21.—(Special)—The Full court today dismissed with costs the appeal in the case of the Centre Star Mining company, plaintiffs (appellants), v. British Columbia Southern Railway company, defendants (respondents). The Centre Star company and the War Eagle company joined in an application for water, to be taken from Murphy creek. The B. C. Southern railway made a subsequent application for water from Murphy creek and opposed the application of the mining companies on the ground that the law did not contemplate a joint application by two independent companies whose properties were not near each other, and the application did not state when the water was to be used. The judge who heard the appeal from Water Commissioner Kirkup, who refused to grant the rights asked for, referred the matter back to the Kirkup.
 Justice Duffin, it was not disputed that necessary notices were duly given, and an applicant might ask for more than the law allowed, and specify things in his notice not mentioned in the act. Those things will not render his application void. The commission acts as a judicial officer; he considers all surrounding circumstances. He has to exercise his discretion. If more is asked in the application than the law provides for, or if some of the things to which the water is to be put are not, in his opinion, correct, he has power to make the record omitting these matters. The intention of the act is that any number of mine owners may apply, or owners of a group of mines under control of a company or partnership may join in an application, but not several owners of separate and distinct mines with no proprietary connections.
 The applicant in the present case should be allowed to elect for which mine or group of mines under one management they desire the water, and the place where the water is to be used should be defined.

TO OUTFIT A CONTINGENT
 Militia Department Ready to Equip Six Hundred Men For South Africa.
 Ottawa, Nov. 21.—It is generally the accepted opinion here that a contingent will be sent to South Africa with Col. T. B. D. Evans in command. The militia department is preparing to outfit 600 men. Most of them will come from the West, and those who have already seen service will get the preference. Major Merritt, who made the offer to recruit the force some time ago, is here today, and it is likely he may receive a subordinate command.
 The stores branch of the militia department is ready to equip the new contingent inside of three weeks or a month. The reply from the Imperial authorities to Lord Minto's message regarding the contingent is not expected before Saturday.

A Foolish Conspiracy
 Some Grounds For Existing to Seize Yukon.
 Was Hatched in Skagway and Papers Have Been Seized There.
 Idea Was to Rob Banks and Steal Gold in Dawson City.

From Our Own Correspondent.
 Vancouver, Nov. 21.—An official of the Dominion government in the Yukon, who arrived on the Amur, is on his way to Ottawa to place before the government facts regarding the alleged Fenian conspiracy in the Yukon.
 The Colonist correspondent secured the following statement: The Canadian government are in possession of the names of the ringleaders of the conspiracy. They have not been arrested, but can be at any time. It would be unwise to disclose these names to the newspapers. The conspirators were American Fenians, and pro-Boer sympathizers. The Canadian government have been watching developments for some time, having a knowledge of every move made by the conspirators through their secret service officers, when it was thought that matters had gone far enough, and it was learned that an attempt was made to get 2,000 Fenians and pro-Boers from Seattle.
 Papers of the gang were seized at Skagway at the instigation of the Canadian officials. The United States authorities, however, refused to give them up, as they were seized in United States territory, but the safe containing the papers has been sealed and is retained in possession of the United States officials until the matter can be adjusted between the two governments. These papers disclose the whole plot.
 Details will only be disclosed to the government, but generally speaking, the idea was to seize the banks, secure the money and gold on deposit and take possession of Dawson and the mines. It was not intended to try and hold the Yukon more than three weeks. It was believed that for that time, owing to British troops having to pass through United States territory, the Yukon would be interrupted. There seems to have been a hazy idea that at the end of three weeks the conspirators would disband and escape to the United States, and send the money stolen from the Yukon to the Boers to help on the war in South Africa.
 Owing to the intense hatred among a certain class of United States citizens for anything British in the Yukon, it is believed that trouble will crop up again of a similar nature, and some means are being devised to endeavor to stamp out Fenianism in the Yukon for all time.

CONCESSION REFUSED.
 Chinese Court Declines to Allow Grant to Foreign Nations.
 Hongkong, Nov. 21.—The rumored death of Tao Mu, viceroy of Kwang Tung and Kwang, is denied. It is now said the viceroy has resigned owing to the Empress of China having refused to allow him to grant a concession for Honanuis island, opposite Canton, to certain foreigners, presumably on application made by the United States, German, French and Japanese consuls. The court telegraphing the viceroy a reply to his request that this concession, said: "Defend the boundaries; these are your orders."

ARCHBISHOPS MEET.
 Conclave of Heads of Roman Catholic Church in United States.
 Washington, Nov. 21.—The archbishops of the Catholic church in this country began their annual meeting here today, in Macmahon hall, at the Catholic university. The proceedings were secret. The meeting, which is the highest council in the church in the United States, considers matters affecting the work of the church in the new insular possession of the United States, and the matter of federation of the Catholic societies, which it has proposed to effect, but Archbishop Keane, of Dubuque, Iowa, has refused to state that there was anything to be made public at this time.

BY-ELECTION.

Portage la Prairie Having New Voters' Lists Made.

Winnipeg, Nov. 21.—(Special)—A proclamation has been issued for the Portage la Prairie division in the local legislature. A by-election is necessary owing to the death of William Garland, Conservative.

PENNSYLVANIA COAL.

Amount Estimated to be Still Unmined.

Philadelphia, Pa., Nov. 21.—An estimate prepared by a local banking house shows that there remains in the anthracite fields of Pennsylvania 507,375,000 tons of unmined coal. With the exception of a trading percentage, all this coal is owned by the eight railways that enter the anthracite territory. Based on the present demand, it is estimated that 50,000,000 tons of anthracite coal will be mined and placed on the market this year.

THE JACKSONS.

Continuation of the Hearing in London.

London, Nov. 21.—When the hearing of the charges against Theodor Jackson and Laura Jackson (Ann Odella Dis Dehar) was resumed this morning at the Marylebone police court, Detective Peter Kane produced an American certificate of marriage, dated New Orleans, November 13, 1898, in which the prisoners were described as Frank D. Jackson, of Wisconsin, and the Princess Edith La Lita Baronsse Rosenthal and Countess Le Usidyseldt, of Florence, Italy.

Other documents produced related to a secreted the marriage unit, "founded by Cyrus R. Teed," and referred to a newspaper war between Teed and Madame Horos.

Other papers dealt with leagues under various titles started by the Jacksons in Chicago, Paris, Capetown and elsewhere. The hearing was adjourned until Saturday.

ROYAL SCANDAL.

Queen Wilhelmina and Her Husband Reported to Have Quarrelled.

Antwerp, Nov. 21.—The Nieuwe Gazette today prints a story to the effect that the illness of Queen Wilhelmina, of Holland, was the sequel to a quarrel of some kind between her and her husband. Several reports of disagreements due to the Prince Consort's jealousy, cold and severe disposition have been current and the Queen is still very ill. The young Queen inherits all the Orange obstinacy and dislike of criticism, and rumors of royal unhappiness started some months ago.

Apeldoorn, Holland, Nov. 21.—Although Queen Wilhelmina has not yet left her room her condition has improved. The court physician visits Her Majesty only once a day. She is still very ill and requires a great deal of rest. The Queen will probably be able to return to The Hague in a month.

COLON'S CAPTURE.

Further Details of Success by Colombian Rebels.

Colon, Colombia, Nov. 21.—The city of Colon was peacefully quiet all yesterday and last night. It is claimed, on behalf of the Liberals, that there has been no unseemly behavior. Foreigners are being respected and protected, and transit across the isthmus is uninterrupted. The post office, prefecture, and all the other government offices, and nearly all the commercial houses were closed yesterday. Colonel Barrera, commander of the liberal forces, says that he has notified the district representative of the department of the interior and other former officials of the government, that he has appointed a commission to take over their offices formally today. Senior Espartero, a prominent lawyer and counsel for the Panama railway, is a member of the commission.

The feeling of the community cannot be regarded as antagonistic to Liberalism. The existing conditions have created no panic, but it is recognized that the Liberals are in possession of Panama creates a state of affairs which cannot possibly continue.

Colon Barrera admits that the government troops numbered a little less than 120 men. It was at first reported that 120 or more had been killed and that about 30 had been wounded. The bodies of some of the men have been discovered. The inspector of customs escaped on the steamer. Several prisoners who were captured by the Liberals has since been released.

General Zaldivar commands 200 liberal troops at Gatun railroad station, about six miles from Colon. The Liberals say they are in possession of all the railroad stations between Colon and Las Casca, which is nearer to Panama than Colon.

Both sides used Remingtons and Mausers. The former caused the higher death rate. A Liberal prisoner who was shot in the neck with a Mauser bullet is reported to be doing well.

No immediate attack on Panama is contemplated. Colonel Barrera is waiting the arrival of Colon of the Liberal chief, Domingo Hiaz, in a day or two, when definite plans will be formulated. General Zaldivar commands the government forces at Panama.

General Pantoja, the original commander of the Liberal force which captured Colon, is said to have intended to capture the Colombian embassy General Pinzon in person, and some say that the capture was doomed in an effort to reach her in a boat which collapsed. Colonel Barrera denies this, that there is no doubt that the capture of the General Pinzon was contemplated.

The Expedition To Kingcombe

Superintendent Hussey and Provincial Police Officers Return From the North.

Seven of the Tribesmen Arrested And Punished For Offences.

Supt. F. Hussey and Officers Hoskins, Campbell, Johnson and Munro were passengers home from Kingcombe Inlet, on the steamer "Amur," leaving for the B. C. Quadra at Alert Bay. The expedition of provincial officers left here on the morning of Wednesday, the 13th, and embarked on the Quadra at Vancouver. The steamer "Amur" left for the B. C. Quadra at Alert Bay, and anchored four or five miles from the rancherie, which fronts the river, which flows into the inlet at its head. The Indians had been warned of the coming of the Quadra and had taken to the tall timber. The superintendent and officers of the provincial police landed in the Quadra's launch and found that the 250 or more tribesmen on the rancherie all had gone leaving the Chief Kaote, and a few others.

Straightway to the Chief Kaote, and Kaote was interviewed. He was unwilling to discuss the matter, but he was willing to contribute \$200 to King Edward if the Quadra would go away and leave his people alone. The cultus of the \$200 was declined, and on the chief refusing to aid in bringing in those wanted for stealing, the chief and the others for obstructing the officers who had tried to arrest them, the chief was arrested. He and several others were taken on board.

The superintendent and officers then went ashore to round up the others; word was sent to the Indians that leniency would be extended towards the culprits. They then offered to produce one, and Leslie, one of those wanted for stealing the check, was brought in. On being pressed, the others were forthcoming, and they were taken on board the Quadra, where Capt. Walbran sat in his position as justice of the peace, and tried the cases. The chief was fined \$100, or in default, to be imprisoned six months. He paid the fine. His son Dick was sentenced to be imprisoned for six months, and Jack, Billy, Hlakio Klakus, Frank and Lexie were given the same sentence. The last named couple are still to be tried on the charge of stealing the check, because of the disturbance and molestation of the special constables who went to arrest them for this offence that the trouble arose.

The expedition sailed from Kingcombe Inlet on Tuesday with the Indian prisoners on board, and went to Alert Bay, where the officers and their prisoners remained until the "Amur" called on route down on the following morning, when they left for New Westminster, and after leaving their prisoners there, came on to Victoria.

CALL FOR NEW TENDERS.

Independent Labor Party Favor Such a Course by the Council.

The Independent Labor party held a meeting last night, and discussed the platform, passed the following resolution on the action of the city council in reference to the Point Ellice bridge tenders:

"Resolved, That in the opinion of this meeting the Mayor and council of Victoria should decide upon a definite plan and specifications of a bridge at Point Ellice, and call for new tenders, giving every firm tendering a fair and equal chance. If any preference be shown, that it be given to a Canadian firm, local if possible."

The planks of the platform discussed last night were favoring the extension of the Island railway to the north end of the Island, and direct legislation by means of the referendum.

WIRES CROSSED.

And One of the Fire Department Horses Was Killed.

Last evening, the wires in the Fire hall, connected with the drops, which release the horses from their stalls, in some way, crossed with the tramway wires, and one of the horses was killed. A chain is stretched across each stall, and the wires run to the ceiling through a tube and then across the hall to a knee. From there they connect with the drops, and the horses, when the fire alarm system, and all the horses received shocks.

About 9 o'clock, as the firemen were sitting in the hall, they suddenly heard the horses' plunges. They were apparently badly frightened, and when the men went to ascertain the cause of their fright, they found that the horses had received electric shocks from touching the chains, which cross their stalls, just under their chests.

"Dan" a big truck horse usually called "Sharker," by the firemen, fell across his chain and died within a minute. The big black horse, "Prince" also received a bad shock, but he recovered. He was knocked down, but was not injured. Dr. Hamilton examined the horses, but no marks were found. It is thought the animal received the shock in the region of the heart. All the wires connecting with the drops were cut after the accident, and a repair was made up to open the doors in case of an alarm.

GERMANY'S ATTITUDE.

Anti-Chamberlain Agitation Attracts More Attention in London.

London, Nov. 22.—The fact that the anti-Chamberlain agitation in Germany has at last attracted a semi-official expression of approval from the North German Gazette has had the effect of convincing the British press that the situation is becoming serious. It is thought there had been a disposition to disregard and belittle the influence of the agitation. Now the papers are taking the trouble to explain that Mr. Chamberlain's words were not intended to insult or offend Germany. All the papers publish long special articles from Berlin describing the public feeling and agreeing that the article in the North German Gazette is a proof that the German government is altogether powerless to stem the agitation which is intended, if possible, to force Count von Bulow into some anti-British pronouncement.

Great Scottish Exhibition a Huge Financial Success.

The Glasgow International Exhibition which closed on November 9, has a remarkable record of financial success far different from the experience of the Buffalo Exhibition. The aggregate attendance has been nearly double that of the previous exhibition, and the gross receipts were largely in excess of those of 1888.

There will be a handsome surplus at the disposal of the town corporation when all the expenses have been met. There has been no sacrifice of Scottish principles, for the gates have been closed every Sunday. The business management has been excellent, and the most progressive municipality of the United Kingdom has profited in many ways by its enterprise. One secret of its financial success has been the pains taken to make Glasgow the meeting place of scores of conventions and representative bodies during the summer and autumn.

Easy to Take Easy to Operate

Hood's Pills

SUNDAY SCHOOL CONVENTION

Interesting Meeting Held in the First Presbyterian Church.

The second annual convention of the British Columbia branch of the International Sunday School association, opened in the school room of the First Presbyterian church, last evening. The attendance was not very large, but the session was an enthusiastic one.

The convention opened with a service of song led by Mr. E. A. Lewis. Mr. N. Shakespear then gave the opening exercise, after which Mr. John Meston welcomed the delegates. Rev. R. B. Blyth made a suitable reply, and after a few interesting remarks by Mr. N. Shakespear, Mr. W. W. MacIntosh read an extremely interesting paper entitled "Teachers and Their Responsibilities."

An animated discussion followed. The session closed with a hymn. Today's program is as follows: 7:45-8:06—Service of song led by Mr. MacIntosh. 8:00-8:10—Opening exercise by President N. Shakespear. 8:10-8:30—Paper, "Cradle Roll," Mr. N. Shakespear. 8:30—Discussion of paper. Address, "Some Forces That," Rev. G. MacIntosh, Secretary Washington State Sunday School association. Collection. 9:10—Paper, "Systematic Giving," Mr. J. O'Brien, Victoria. 9:15—Discussion and closing hymn.

This evening's session will be held in the Temperance hall.

RIP VAN WINKLE.

Thomas Jefferson Delights a Large Audience at the Victoria Theatre.

Mr. Jefferson's interpretation of "Rip Van Winkle" at the Victoria theatre last night was entirely satisfactory to the large audience which greeted him on his first appearance in this city. Many Rips have been seen here, but Thomas Jefferson stands head and shoulders over them all, on the same plane as his father who made the part famous over a quarter of a century ago, and whose performance has been imitated by hundreds of aspiring actors, but never equalled, except by his son and pupil, who in his turn had the privilege of seeing his father's performance.

The company supporting Mr. Jefferson is a capable one, each member trained and fitted to his part, and the play moved with a naturalness and smoothness very refreshing to witness. Miss Margaret Hayward, as Gretchen, the couple heart driven to shrewishness by Rip's thoughtless neglect of his duty to his wife and child, gave a strong, impassioned rendition of her role, and the children, Marie and Clifford, did their parts to perfection.

The setting of the play was excellent, the scene in the Catskills, where Rip encounters Hendrick Hudson and his shanty crew, being especially beautiful and effective.

WILLIAM LAW DEXTER.

He Was a Member of the Nova Scotia Legislature.

Yarmouth, N. S., Nov. 21.—W. Law, member of the legislature for Yarmouth county, died at noon today.

Carlton seems to Carlisle enough to make several people rich.—Hamilton Spectator.

NOTICE TO CONTRACTORS.

Westminster and Ladner's Road.

Scaled tenders, indorsed "Tender for Wagon Road," will be received by the undersigned up to noon of Monday, the 2nd December, 1901, for the construction of about 5 1/2 miles of wagon road.

Plans, specifications, forms of tender and contract may be seen on and after the 21st November, 1901, at the Government Offices at Victoria, Vancouver and New Westminster, and also at the office of the clerk of the Westminister Council, Delta.

Tenders will not be considered unless made upon the printed forms supplied for the purpose, and the agreement to execute a bond appended to the Form of Tender is duly signed by the Contractor himself and two other responsible residents of the Province in the penal sum of \$3,000, for the faithful performance of the work.

The lowest or any tender not necessarily accepted.

W. S. GORE, Deputy Commissioner of Lands and Works, Lands and Works Department, Victoria, B. C., 20th November, 1901.

Public Notice

The B. C. Market Co., Ltd., beg leave to announce to their customers and the public generally that on and after 1st December, 1901, their place of business will be at 6 o'clock sharp. This is in compliance with a requisition from their employees, asking for a slight reduction in their hours of labor, which has been from 5 a. m. till 7 p. m., out of all proportion with the hours worked by other trades or callings, as well as being longer hours than those of Portland, Seattle, Tacoma, Nanaimo or Vancouver markets. Trusting our patrons and the public generally may be as free to concede the justice of our action as we have been, and governing themselves accordingly. Yours respectfully, THE B. C. MARKET CO., LTD. B. W. VELCH, Mgr.

CHAINED FOR TEN YEARS

There is nothing like Asthmale. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. P. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmale received in good condition. I cannot tell you how thankful I feel for the good delivered from it. I was a slave, chained with painful sore throat and asthma, ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, asthma, and thought you had overspoken yourself, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full-sized bottle."

REV. DR. MORRIS WEZISLER, Rabbi of Cong. Bnai Israel, New York, Jan. 3, 1901.

Drs. Taft Bros., Medicine Co., Gentlemen: Your Asthmale is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we state that Asthmale contains no opium, morphine, chloroform or ether. Vary truly yours, REV. DR. MORRIS WEZISLER, Avon Springs, N. Y., Feb. 1, 1901.

Feb. 5, 1901. Dr. Taft Bros., Medicine Co., Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-sized bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

67 East 120th St., N. Y. City.

Do not delay. Write at once, addressing DR. TAFT BROS., MEDICINE CO., 70 East 130th St., N. Y. City.

News of the Waterfront

Steamer Amur From Skagway Reports Probable Loss of Schooner.

Slush Ice Still Running at White Horse—Kinshu Maru Arrives.

Steamer Amur, which returned from Skagway yesterday afternoon with 70 passengers and considerable gold, brings news of the supposed loss of a schooner off the Alaskan coast with all on board. The Juneau Despatch of November 14 says that the steamer Yukon, Capt. Knapp, which arrived at Juneau that day from Glacier Bay after a stormy trip, reports that while she was lying in Swanson's bay, waiting for the storm to subside, a canoe full of Hoonah Indians came alongside and reported that they had seen at a distance a schooner which looked like a complete wreck. They also saw a boy's jacket, a mess-box and a jack-knife scattered along the beach, but no signs of life were seen around the wreck. It is believed some terrible disaster has happened to a company of prospectors.

The officers of the Yukon report that Glacier bay is covered with a mass of ice, and that section of the country is now very stormy and dangerous to navigation. The Amur took North the sleighs for the stages which will give a winter service between White Horse and Dawson for the White Pass & Yukon railway. Men were at work when the Amur left on different parts of the trail, and just as soon as the ice becomes solid they will begin road-making. The stages are to leave White Horse every Wednesday and Saturday for Dawson. They will only travel by daylight, stops being made at the roadhouses every night.

When the Amur left Skagway on Monday, slush ice was running at White Horse. The thermometer was still high. Never before has White Horse experienced so late an open season. Of course the water has a current there which prevents its freezing until it becomes real cold, but this year the ice has been once that the temperature was below zero.

The slush ice is soft and floats lightly on top of the water. There is no probability of it becoming firm enough to freeze along the shore unless a cold snap sets in.

Among the passengers who came down from the North on the Amur were Sam R. S. Hines and a squad from Albert bay, of whose trip details are given in another column: P. Stalschmidt, J. S. Haver and H. Price, who have a valuable mining property from which they are being taken to Skagit arm in the Alaskan district; Capt. Smith of the steamer Prospector, which has been operating on the Stewart, and several other passengers; E. S. Price, Canadian customs supervisor at Skagway.

MENACES TO NAVIGATION.

Hydrographers Tell of Dangers Discovers in Barkley Sound.

Hydrographers Tell of Dangers Discovering in Barkley Sound, Vancouver Island, the existence of the following dangers: 1. A rock about 25 feet high, situated about 1/2 mile from the shore, bearing N. 71 deg. W., distance 3/4 cables, and northeast extreme of Shelter islands N. 47 deg. W. 2. A rock about 12 feet high, situated with the western extreme of large Double Island bearing N. 11 deg. W. distant 3 cables, and eastern extreme of the same island N. 30 deg. E.

3. Heddlington reef is situated about half a mile to the eastward of its position as shown on the chart, on its eastern side are two heads which dry 6 and 10 feet respectively, the 10 feet head is situated with Black Rock bearing south.

It Is Not a Stimulant

But a Tonic You Need.

Hosts of people do themselves irreparable harm and shorten their lives by many years by the use of stimulating drugs to whip up the exhausted nervous system and keep the machinery of the body working. Others get temporary relief from nervous headaches and body pains by the use of deadening and nerve-destroying narcotic. Both of these treatments mean death to the nervous system, and hasten the approach of paralysis and insanity.

Dr. Chase's Nerve Food is a protest against these old-fashioned and villainous methods of treatment. Unlike any other medicine you ever used, Dr. Chase's Nerve Food forms new red corpuscles in the blood and creates new nerve tissue to replace that destroyed by overwork and disease. It is impossible to obtain a more effective treatment for nervous disorders than Dr. Chase's Nerve Food, because it gradually and naturally restores the wasted nerve cells and rebuilds the system. It is the up-to-date remedy for weakness and disease resulting from exhausted nerves.

CONTENTS OF NICHOLS' SLOOP

Found Yesterday Near Scene of Landing Place at Albert Head.

According to facts which have since come to light, it seems that the sloop belonging to Frank Nichols, now in jail, committed for trial at the May assizes for murder, and George Katchules, committed for trial as an accessory after the fact, was not cast loose intentionally by Katchules, who was the last of the two on board. A visit to the scene of the landing of Nichols and Katchules near Albert Head resulted in the discovery of several things, one being the rope which held the sloop. This rope was still fast to the log, and the frayed ends, showed how the rocks had severed it and loosened the sloop, which had been partially wrecked by bumping against the rocks.

It seems that Katchules came to the city on Friday the day before he walked into the police station and gave himself up—and had walked along Government street until he met a fellow fisherman who told him that the police were after him and Nichols. Katchules then went back to Albert Head, and took the plank, compass, rubber coat, gun boots, concertina, and various other "fettas" out of the sloop, and hid them in a box and bucket left on the rocks, near by where the sloop was tied up, and hidden amongst the branches of trees on the bank above. Then leaving everything as he found it, he came to the city and gave himself up. Nichols started from the sloop for the city on Friday night after dark, but lost the road and wandered off to Sooke, whence hungry and tired he came towards the city and went to the C.B. house seeking food when he was captured. Katchules started for town again on Saturday morning, and when he arrived expected that he would find Nichols already reached the city. He was surprised that he had not, and in his ill-advised effort to fence questions put to him by the police, he told the tales of how the sloop had gone to Sidney and then to Port Alberni.

The contents of the sloop were found yesterday just where they were hidden many days ago. In a box near the landing place was some sugar, a clock, a stopped at 8:45 o'clock, a lemon, a salt bag, and in a bundle cunningly cached in a tree nearby was the blanket, hats and other wearing apparel, a concertina, oilskins, rubber boots and other things, all neatly tied up. These things were brought to the city yesterday.

It is also learned that when Nichols fled after stealing Nettie's fatality, the victim chased him for some distance. He following through the alley leading from Herald street to Chatham, and up Chatham street, and Nichols ran to Douglas street and then to Herald and down Herald to Turret rock, where he jumped on board his sloop, fearing pursuit, for it was not until he reached the city that he knew that Nettie was dead.

LOCAL NEWS

Royal Arcanum—Majestic Council. Royal Arcanum, held a successful entertainment at the William Wallace hall last night, at which an excellent programme was presented.

Lecture This Evening.—As a preliminary to the lecture to be given by Capt. Clyde Phillips-Volney, on "The Music of the Future," there will be a musical programme to commence at 8 o'clock sharp. Mr. H. D. Helmeck will occupy the chair.

Elected Officers.—At a meeting of the Victoria Terminal Railway & Ferry company held yesterday morning, Mr. Henry was elected president; Mr. A. H. B. Macdonald, vice-president, and Capt. S. K. Macdonald, managing director. Another meeting of the directors was held last evening. The company intends to build a spur from the Victoria & Sidney railway at Sidney and will bring loaded cars to Victoria within a few weeks.

Sailors' Entertainment.—The benefit concert given by the Black Diamond Minstrels of H. M. S. Wasp, in the institute hall, last evening, drew a large audience, notwithstanding the unfavorable weather. The concert was in aid of the widowed mother of the late Edward Lankford, who died at the R. A. hospital here, on November 3. The sailors gave an excellent programme, and the jokes kept the audience in roars of laughter. E. Higgins made a hit with his comic song, "Haden-Powell's Scout." He was enthusiastically recalled, and gave "Goo Goo Dyes," W. Silk, also received an ovation for his comic song, "Ringtail Coon." The sailors' Hornpipe was danced cleverly by R. Stenhouse. The concluding sketch, "Caught in His Own Trap," was very funny, the different characters being well taken. Altogether the performance was an excellent one.

RALPH CONNOR.

A Canadian Who Is Winning Fame As An Author.

Ralph Connor's new story "The Man from Glenarry," which has been running in "The Westminster" of Toronto, is soon to be published in book form, and the publishers already announce that advance orders have about exhausted the first addition of 50,000. The story deals with the backwoods and lumber life and is even a better story than "The Sky Pilot." It is a distinctly Canadian story by a Canadian who has lived in the scenes of which he writes and knows his ground. Ralph Connor is the son of the plume of Rev. Charles W. Gordon, pastor of the Scotch Presbyterian church in Winnipeg. His father, a minister before him, came to Canada in the early forties, and made his home in the Highland settlement of Glenarry, near the "Indian lands" of the eastern peninsula of Ontario. His mother was the daughter of a Scottish Presbyterian who settled in New England in the early days. She was a cousin of the Rev. Andrew Murray, leader of the Dutch Reformed South African church. At 20 years of age she taught philosophy at Mount Holyoke, and at 22 declined the position of principal of the school. Instead she married the young minister and went to live in the backwoods of Canada.

The author was born in the Highland settlement, in the midst of the forest, in 1860. He was graduated from Toronto University, and studied theology at Knox College. Then he went to Edinburgh for a post-graduate course. The testimony of his intimates is that the minister-author is personally exactly what you would expect from his book—a lover of nature, a close observer of man, an athlete, a believer in the great west, a man's man, courageous, witty, wholesome and very human.

How the Rev. Charles W. Gordon came to be Ralph Connor is interesting. He got the needs of the miners, ranchers and lumbermen, and appealed with great success to a missionary society. Then the editor of the "Westminster" in Toronto suggested that he write a story for that paper that should be effective, and appeal for funds. He wrote what are now the early chapters in "Black Rock" his first book. He wired the editor to use the name "Connor," combining the first syllables of Canadian and Northwest. "The Westminster" then wrote it for "Connor," and the editor prefixed the "Ralph" for the sake of euphony. "Ralph" for me," remarked the author, "but I guess I can stand it."

64 Merchants Exchange, San Francisco.

\$10 REWARD

Will be paid for such information
as will lead to the conviction of
anyone stealing the Colonist from
the doors of subscribers.

PUBLISHERS' NOTICE

Reading notices or "locals" in con-
nection with all public entertain-
ments to which an admission fee is
charged will be inserted in the Col-
onist at the rate of 10c per line.

VICTORIA JUBILEE HOSPITAL

The report of the meeting of the Vic-
toria Jubilee Hospital Board, printed in
the Colonist of Tuesday, was unusually
interesting. Those who read it must
have learned with great interest of
what the Hospital is doing and of its
financial demands for the future. This
institution is becoming one of very great
importance. It has now been ten years
in existence and has gained a reputation
which extends outside of the confines of
British Columbia. While it is not
strictly a provincial establishment, it
comes very near to being so, and is un-
doubtedly one of the most useful, valu-
able and best appreciated institutions of
the kind in Canada.

It is very clear that something will
have to be done, and done at a very
early day, to provide greater accommo-
dation as well for the nurses as for the
patients, and the one thing needed for
that purpose is money. The provincial
government can always be relied upon
for a certain amount of assistance, but
the chief source to which the Board
must look for money to provide addi-
tional facilities is the generosity of the
public. It may be justly said that the
public have always shown themselves
equal to the demands upon them in this
connection, and we have no reason to
fear that they will fail now. Lord
Strathcona has set an excellent example
to our rich people. He has donated
\$5,000, which will be employed in the
construction of a wing, with which his
name will be identified. Have we not
some local people of means, who would
like to do something in the same direc-
tion? A nurses' home is required. What
better memorial could a rich person have
than such a home bearing his or her
name? We hope this suggestion will
fall upon good ground. The general
public will respond to appeals, as they
have always responded in the past, but
though "money" makes a muck, what
a noble muck, what the Board ought to
have is a substantial sum placed at its dis-
posal. There will always be plenty of
uses for the smaller contributions of the
general public.

THE ATTITUDE OF THE TIMES.

The Times throws cold water upon the
idea that an attempt should be made to
induce the Dominion government to pro-
mote, among other things, the establish-
ment of a great smelting industry on
Vancouver Island. It cannot under-
stand why, if the advantages of Van-
couver Island in this regard are so great,
that capitalists have not already taken
advantage of them. It adds that the
idea is not impracticable, but is very
much in the air. It tells us that the
matter has received very little atten-
tion here yet. It doubts how far the
people of Canada will bear the govern-
ment out in going in the direction
indicated, and it thinks the local gov-
ernment should collect statistics bearing
upon it. This from a paper which tells
us we have our representatives in parlia-
ment to look after our interests, and
which may, without any violent stretch
of the imagination, be taken as express-
ing the views of one of those representa-
tives, is not very encouraging.

We shall first speak of the last-men-

Pellew-Harvey, Bryant & Gilman
ASSAYERS,
Mining Engineers and Metallurgists
Ores Analyzed. Control Assays.
Properties examined, sampled and
reported upon.
Victoria, Opposite Driard Hotel.

tioned proposition of our contemporary,
which is that it is the duty of the prov-
ince to collect the data bearing upon the
question. Against this view of the
case we protest. Canada has a Depart-
ment of Commerce which is presided
over by that energetic gentleman, Sir
Richard Cartwright. His predecessor in
office was Sir Mackenzie Bowell. Both
of these gentlemen have endeavored to
do something to develop Canadian trade.
They recognized, if the Times does not,
that it was their duty to see how the
commerce of Canada can be developed,
and at their instance some money has
been expended for that purpose. A
little over four years ago Mr. E. E.
Sheppard, of Toronto, went down to
Mexico and some parts of South Amer-
ica to examine into our trade rela-
tions there, and he made a report,
which was not unfavorable. He said
nothing on the subject of ore shipments,
for the very simple reason that nothing
had up to that time been proposed on
the question. The same principle which
led the government to send Mr. Shep-
pard would warrant it in inquiring into
the line of commerce suggested, Mexico,
Central America and South America
are consumers of articles which Canada
produces. Canada is not as yet a large
consumer of articles which they pro-
duce. Hence the trade would be only
one way. Ore shipments would furnish
return freights, and thus make it pos-
sible for shippers of Canadian products
to get lower freights on out-going car-
goes. An investigation into this matter
is peculiarly within the province of the
Minister of Commerce, and we are not
without hope that in spite of the indif-
ference of the Times, it may be made
the subject of consideration on his part.
We regret very much to see this indif-
ference on the part of our contemporary.
It has been very, and most properly,
in earnest in advocating that British
Columbia should have cabinet repre-
sentation, and it is an open secret that
the Times could find, without searching
very far, a gentleman, who, in its op-
inion, would fill the bill as if he were
made for it. Yet we find our contem-
porary throwing cold water upon a pro-
posal, simply because it is new and has
not been much discussed, and endeavor-
ing to cast upon the provincial govern-
ment a responsibility which properly
rests upon the federal cabinet.

Our contemporary doubts how far the
people of Canada would bear out the
federal government in promoting the
special industry referred to. They cer-
tainly would not bear it out at all, if
our contemporary, published in the city
which would reap the greatest advantage
from it, continues to take such an atti-
tude towards it. But we are well satis-
fied that if the Federal government
would look into this question and, having
realized its advantages, would set them
before the people of Canada, the latter
would sanction any legitimate expendi-
ture for the purpose. They have not
hesitated to do so in other matters. At
present they are ready to sanction a large
bonus to bring about the establishment
of a fast trans-Atlantic line, so that the
east-bound commerce of Canada may be
built up. We of British Columbia will
bear our share of this expense without a
murmur, although our direct interest
in the results is less than that of any
of the other provinces, and our per capita
contribution towards it will be three
times as much. If a profitable commerce
could be established on the Pacific Coast
between the Latin republics and Canada,
and a great industrial centre could be
built up on Vancouver Island in connec-
tion therewith, we do not believe that
the people of Canada would refuse to
sanction the requisite assistance to trans-
portation lines. This matter comes home
to the people of Canada and this prov-
ince all the stronger, because it is well
known that President Roosevelt will re-
commend, either this year or at some
other time during his term of office, that
the Congress of the United States shall
provide subsidies especially for the pro-
motion of commerce on this ocean.

Our contemporary tells us that very
little attention has yet been paid to this
matter. Is this any reason why no at-
tention should be paid to it now? We
do not bring it forward as an old ques-
tion which has been threshed out, but as
something which, though not absolute-
ly new, for it was laid before Sir Wil-
frid Laurier last winter, and admitted
by him to be a subject worthy of serious
discussion, has received little or no pub-
lic attention. It is to arouse that pub-
lic attention that we refer to it now, and
it is with no little disappointment that
we find the Times objecting to discuss
it because it is new. Surely it has not
come to this, that British Columbia
must sit down until everything has been
discussed and acted upon before it puts
forward its own claims. Surely if any
one ought to endeavor to impress upon
the government and the people of Can-
ada the importance of doing what can
be done to build up the commerce of
British Columbia, we find that \$75,000 are
paid annually as a subsidy to a line of
steamers between Halifax and the West
Indies, and that other subsidies, the list
of which takes up a whole page in the
Auditor-General's report, are paid out
for similar service in the East. We do
not forget either that under the Conser-
vative regime very substantial subsidies
to the Asiatic and Australian service
from this coast were inaugurated and
have since been maintained. What we
ask now is that the Dominion govern-
ment shall take into its consideration
the question of ore smelting on the Pacific
Coast, and not only South America
ores, as our contemporary says, but ores
from all points north and south of Van-
couver Island, and see if it is not pos-
sible by a judicious concession of sub-
sidies, to stimulate the carrying trade in
such ores. When this has been done,
we have some confidence that the nec-
essary capital can be secured to put up
the requisite smelting plant.

There remains the objection that if the
advantages of our situation are so great
and obvious, it is strange that capital-
ists have not taken advantage of them.
We confess that we never expected to
hear a British Columbia paper take this
exception to a claim on behalf of any
industry calculated to advance the in-
terests of the province. It applies to
every undertaking. It applies to the ad-
vertising of our city as a pleasure resort.
If its advantages are what we say they
are, why do not tourists take advantage

OLD WESTSIDE, 70 Government Street

of them? If the natural wealth of Van-
couver Island is what we claim it is,
why have not the hundreds of thousands
of people whom it can support come here
to take advantage of what Nature has
so lavishly stored up here? Surely our
contemporary cannot be serious in taking
this objection to an effort to arouse the
interest of the Federal government in the
future of this part of the Dominion.
We should regret to be forced to the
conclusion that a much less important
matter seems so large in its eyes that
it can see nothing else. We should re-
gret to be forced to the conclusion that
a fear of defeating some pet ambition
deters our contemporary from pressing
the just claims of the province. If this
is its object it is defeating its own pur-
pose. We have joined with it in demand-
ing from the federal government cabinet
representation. But if we are receiving
all the consideration as a province to
which we are entitled, what is the use
of asking for cabinet representation? There
can be no other object than to secure
patronage, and we are not sure that
this is a matter of such importance
that the people of British Columbia will
trouble themselves much about it. We
regret very much that the Times feels
compelled to stand as the apologist for
a policy of inaction as far as this prov-
ince is concerned, and can only hope
that it will some day realize that the
people demand something more from the
federal authorities than it seems to think
we are entitled to.

THE GREAT RAILWAY DEAL.

The public does not know, and is not
likely to be informed, of the details of
the great railway deal recently ar-
ranged in New York. We pointed out
a fortnight ago that the control of the
Chicago, Burlington & Quincy railroad
was the crux of the situation, there be-
ing a conflict between the Hill-Morgan
interests and the Harriman-Kuhn-
Lobe syndicate for supremacy upon the
directorate of the road with its mileage
of 7,840 miles. Messrs. Hill and Mor-
gan had little trouble in acquiring the
great majority of the stock of the Bur-
lington, but the work of the other syn-
dicate in connection with Northern Pa-
cific stock was so skillful that they were
able to secure satisfactory terms in re-
gard to the business originating along
the Burlington system. A member of
the Harriman syndicate told a represen-
tative of the Chicago Inter-Ocean that,
while he could not go into details, he
could say that the terms of the settle-
ment had been satisfactory to Union Pa-
cific interests. The same gentleman also
said:

Great interests have been welded to-
gether in a masterly and beneficial way.
Perhaps it is fortunate in some respects
that the controversy arose, for results
have been reached that might not have
been reached had the matter been set-
tled off-hand at the start. The issues in-
volved have been decided on a much
more comprehensive scale than might
have been the case at the outset. A
great railway problem has been adjust-
ed in a broad-minded and business-like
manner, and no trace of animosity re-
mains.

A phase of the arrangement is the ac-
quirement by the Northwestern Securi-
ties Company of the stock of the North-
ern Pacific and the Great Northern. This
company has a capital of \$400,000,000.
It has been organized with Mr. J. J.
Hill as president and chairman of the
executive committee. There are fifteen
directors, of whom the Union Pacific has
three, and on the executive committee,
that railway company has one repre-
sentative. The final outcome of the
whole deal is that the Burlington board
of directors, eleven in number, is made
up of six Hill men and five Harriman
men. Of the fifteen Northern Pacific
directors twelve are Hill men. Of
course, Mr. Hill controls the Great
Northern and its connections. This
makes the railway combination under
the control of the Hill-Morgan syn-
dicate embrace the following roads: North-
ern Pacific, Great Northern, Milwaukee
& St. Paul, Chicago, Burlington &
Quincy and Chicago & Northwestern.
Their united mileage is 32,372 miles;
their aggregate capital stock is \$847,-
862,308, and their combined bonded
debt, \$688,697,800. This is probably
the largest combination of capital and
railway mileage that has ever been
formed. There is naturally some anx-
iety as to what its effect upon business
will be. In New York the impression

is that it will tend to keep conditions
steady, and it has been expressly stated
on authority that no advance in rates
is contemplated. Those who have watch-
ed Mr. Hill's remarkable career as a
railroad man will find no difficulty in
concluding that he has in mind in carry-
ing out the arrangements just complet-
ed the growing commerce between Am-
erica and Asia. He is known to have
very advanced views on this subject,
and he is certainly in a position to carry
them into effect. There may be some
legal difficulties to overcome, but the
counsel employed think these are only
imaginary. In Minnesota and in the
state of Washington and, perhaps, in
some of the other states through which
the Great Northern and Northern Pa-
cific run there are laws against the amal-
gamation of railway companies having
lines substantially between the same
points. Governor Van Zandt, of Min-
nesota, has already declared that he will
invoke the aid of the courts against the
acquisition of the N. P. and G. N. by
the Northwestern Securities Company,
and Governor Rogers, of Washington,
is said to have in contemplation the call-
ing of a special session of the legisla-
ture to deal with the question.

Without making special reference to
the matter of the suit of the Vancouver
Island Building Society, an item in re-
gard to which will be found elsewhere,
we would like to say that the idea that
newspapers are published under peril of
proceedings for contempt of court be-
ing taken against them for printing the
news of the day, will not be sustained
by public opinion in this country. The
doctrine of constructive contempts has
at times been pushed very far, but not
so far as to prevent the publication of
ordinary news. The true principle is
laid down in Hunt v. Clarke, where it
was held that such publication is not a
contempt unless it is likely to or actual-
ly does prejudice any of the parties, or
interfere with the due administration of
justice. This does not mean that the
publication of something which may
hurt the feelings of a litigant is a con-
tempt of court. The prejudice must be
to the standing of the litigant before
the court or jury. At the same time,
we deprecate the publication of news
items at the instance of solicitors who
may have instituted proceedings. There
is, however, a class of cases in which
the public generally are interested, and
these stand upon a different basis to
purely private suits. The latter ought
as a rule to be referred to only under
special circumstances.

The Mayor has called a meeting of a
few representative citizens, for this
afternoon, to discuss the advisability and
the practicability of organizing a Tour-
ist association, which will have for its
object the promotion of tourist travel
to Victoria and Vancouver Island during
the summer months. It has long been
felt that Victoria's exceptional climate
and geographical position should insure
to her a much greater share of tourist
travel than she has so far enjoyed, and
although the subject of attracting visit-
ors has often been discussed, no defini-
tive plan has as yet been formulated to
deal with the matter. The advantages
which would accrue to the business men,
hotelkeepers, and the community gen-
erally, from a large influx of summer
tourists, would be hard to estimate at
their true value, and it is to be hoped
that today's meeting may result in the
formation of a strong organization which
will take vigorous measures to attain
an object so long desired and so im-
portant to the future prosperity of the
city.

A JUST CRITICISM.

The Bishop—Much as I should dislike such
a course, I fear, should you continue in
your public endorsement of the higher crit-
icism, that you may have to be severely
disciplined.
The Curate—But, Bishop, you yourself
believe in it.
My dear young friend, it is one thing to
have a belief and quite another to expound
it from the pulpit.

DON'T THROW THEM AWAY.

It is just like throwing away money,
when you throw away the SNOW SHOE
TAGS which are an every-plug of PAY-
ROLL, CHIRWING, TOIACCO, Save them
and you can have your choice of 150 hand-
some presents. Tags are good up to Janu-
ary 31st, 1902. Ask your dealer for our
new illustrated premium catalogue.

SPENCER'S

Sale of Ladies' Raincoats Saturday.

18 were \$15.00
8 were \$12.50
30 COATS
IN THE LOT.
1 was \$10.00
3 were \$ 9.50
Saturday \$7.50 each.

Handkerchiefs

Question of Sanitation

Conference Between City Council and Directors of Royal Jubilee Hospital.

City Will Do What Is Possible to Meet Request For Services.

An important conference was held yesterday afternoon in the civic committee room between members of the board of directors of the Royal Jubilee hospital and the city council to consider the question of providing connection with the city system for the hospital.

There were present Mayor Hayward, Messrs. Sholtz, Holland, Day, Pemberton, Forman, Helmeke, Dr. Fagan, Aldermen Hall, Cooley, Kinsman, Brydon, Yates, Williams and Dr. Robertson, city health inspector.

The Mayor explained that the meeting had been called at the request of the board of directors of the Royal Jubilee hospital for the purpose of discussing the question of drainage for the hospital.

Mr. Day, vice-president of the hospital board, said the board had been informed by Dr. Fagan some months ago that two drainage of the hospital was being carried out on the drain on Cadogan bay road, and was creating a nuisance, which must be abated.

He hoped that the passage of the Septic tank Slaughterage by-law would furnish them with a way out of the difficulty, but that measure having been defeated they were at a loss what steps to take, especially as Dr. Fagan had notified them that he would be leaving the city.

The Mayor explained that the city had had a report prepared by a competent engineer on an entirely new system of drainage for the hospital, including a septic tank and filtering beds, which would cost about \$3,000, but they hoped the city would take such action as would relieve them of a question of making this outlay, which would be unnecessary if the city sewer system were extended to that part of the city.

Dr. Fagan, in answer to a question, said all septic tanks built in the province must be up to a standard approved by the Provincial Health Board, they must be provided with effective filter beds, and where the effluent could not be emptied into the sea, the latter method of disposal was allowable, though he did not altogether approve of it.

He looked upon the septic tank system as a makeshift in a place like Victoria, where the perfect sewerage of the city was so easily attained.

A trunk sewer discharging at Clover point was without the proper, and it was not an effective method of drainage, which if once established would be permanent, while the septic tank system is as yet on trial and only to be recommended for inland places where there is no natural outlet for the sewage. He pointed out that many complaints had reached the Attorney-General's department regarding the defective drainage of the Royal Jubilee hospital, and something must be done either by the city or the hospital authorities.

Mr. Helmeke, while acknowledging that the drainage of the hospital was not by any means what it should be, considered that the complaints were more sentimental than real, at least he had not heard of any serious results.

The board was questioned as to the improvements to the hospital, and it was most desirous that something should be done to furnish a perfect system of drainage, so necessary to the success of the hospital. They had prepared a plan of drainage but they could not carry it out at present for want of funds, and it would be unwise to begin the extensions to the hospital until a satisfactory sewerage system had been installed. They were therefore anxious to ascertain the intention of the city with regard to the question of sewerage.

After further discussion, in which Dr. Fagan was questioned as to the merits and demerits of the septic tank system, the Mayor informed the meeting that a petition was now being circulated among the ratepayers asking the council to re-submit the by-law recently defeated. This would be done as soon as the necessary time had expired, and he hoped the citizens, realizing the importance of the matter, would offer no opposition to its passage.

Mr. Holland suggested that a sewer running south of the hill St. George's Hospital and through the city to the foot of the hill would serve the whole district, and save considerable expense.

Mr. Pemberton heartily agreed with Mr. Holland.

After some further informal discussion, the meeting adjourned after passing a vote of thanks to the Mayor and Aldermen. Dr. Fagan was also thanked for his attendance and advice.

When the back-packer sets out Jesse Moore gives the customer the best in the house.

LEGAL INTELLIGENCE.

Mr. Justice Drake Has a Busy Day in Court and Chambers.

Mr. Justice Drake attended in the Supreme court yesterday to hear motions and made the following orders:

Dunsmuir vs. Noble Five-Mining Co.—Decree nisi for foreclosure of mortgage to be granted on filing affidavit that defendants are an incorporated company. Linton for plaintiff.

Re Dugald McTavish estate—Order made permitting filing of plan of property. Alkman for applicant.

In Chambers—Mr. Justice Drake disposed of the following applications:

Re Plan No. 234, filed in Victoria Land Registry office—Order made to amend plan by closing Paul lane. Elliott for applicant.

Fisherman's Canning Co. vs. Wing On—Order granted for examination of judgment debtor. Hunter for plaintiff; Walls for defendant.

Clarke vs. Patton et al—Replevin order granted. Robertson for plaintiff.

Re White infants—Mother of children appointed guardian. Money belonging to infants to be paid into court. Hills for applicant.

There was a long docket of cases for trial in the county court, but many were settled between the parties, some on the day, and the number were stood over till next court. The only case that Mr. Justice Drake was called upon to try was that of George vs. Baurer, in which the plaintiff claimed a sum of money due him for wages while the defendant pleaded that they were partners, and filed a counter claim for his share of the proceeds of the business.

After hearing a number of witnesses, His Lordship dismissed the case. Prior to plaintiff; Gregory for defendant.

In Chin Chung Kwong vs. Ah Poy and Inverness Canning Co., garnishees, the garnishees were ordered to pay \$152.80. Martin for plaintiff.

Several orders were made against delinquent judgment debtors.

AFTER THE VAGS.

One Who Declined to Leave the City Sent Down for Thirty Days.

The adjourned hearing of the charge of vagrancy against Patrick Dooley, who was originally charged with stealing a ring, was continued in the city police court yesterday morning. After the hearing had been adjourned, the charge was a true one he asked Dooley if he would take two days in which to leave the city or get work.

"Then take a month in the Provincial jail," retorted the magistrate.

The evidence of the police was clear that Dooley had done little or no work since he had been in the city, but the prisoner had a friend, one John Riley, who went on the stand and swore that his friend had always money with which to pay his way. Riley did not know it but the police also had a summons for him for vagrancy, and after he had given his evidence it was served much to his surprise. Until recently Riley had been a steady hardworking man, but lately he had been idle. He was given two days in which to secure employment or leave the city.

A drunk paid \$2.50 and a Chinaman who refused to pay his way was charged \$2.00 in addition to the tax for the trouble he gave the collector.

LACROSSE IN ENGLAND.

Looking Forward to the Visit of the Toronto Team.

The London Sportsman says it will be good news to English lacrosse men that the Toronto club has definitely accepted the invitation extended by the North and South of England associations, and that they will visit the Ould Country in April, 1902. Since 1888, when the same club sent a team over, the game in England has undoubtedly advanced, and play is now of a far higher order.

The Canadians have not been standing still in the meantime, for they have improved their game so much that it has reached perfection. It will be of interest to note the results of matches played by the Toronto club in England in 1888: V. London, 9 goals to 2; v. Liverpool, 12 goals to 2; v. Essex, 10 goals to 1; v. Cambridge University, 8 goals to 1; v. Manchester, 6 goals to 1; and v. Belfast, 9 goals to 2.

A LEVELER.

Briggs—There ought to be some way to prevent folks from getting so very rich. Griggs—Yes; it ought to be a law of nature that, as soon as a man gets to be a millionaire he will develop appendicitis.

BOILERMAKERS

WALK OUT

Refuse to Work More Than Eight Hours a Day on the Topeka.

The boilermakers employed by the Alton Iron Works company went out on strike yesterday morning, the decision to strike having been arrived at at a meeting of the union held on Wednesday evening. The trouble between the men and the company, according to the men arises out of the contract for the repairs to the steamer City of Topeka. Under the rules of the American association with which the local boilermakers union is affiliated, the men work nine hours a day in the shops and eight hours on what is termed outside work, such as that on ships. The Topeka being an American vessel the men hold that they as union men in duty bound to abide by that rule. The company refused to accede to the request for eight hours on the work on the City of Topeka, and the men walked out. But the work has not been stopped, men having been found to take the place of the strikers and Manager Seabrooke says the company will have the steamer out in the time specified in the contract.

DAY SHIFT ONLY.

Dominion Coal Companies Not Now Working at Night.

The Halifax Herald has the following from Gley Bay, Cape Breton, dated November 19:

Orders were issued today by mine superintendent Ludwig to single shift all the collieries of the Dominion Coal Company on Wednesday of this week. This change does away with night work in the mines. The collieries have been working night and day for the last three years, and the outputs have fluctuated from a twenty-four hour hoist of 13,000 tons down to less than 7,000 for the same time. The collieries have an estimated capacity of 15,000 tons a day now, and if the company has enough miners and loaders to run the double shift full blast that much coal could be handled with extra expense. One month ago Caledonia colliery was single-shifted as an experiment, the whole force of labor being confined to a hustling ten-hour day, and the results are very satisfactory. Under the double shift Caledonia turned out about 1,500 in the day; 1,100 or 1,200 tons at night. With only a single shift, fully manned, Caledonia is now mining from 2,000 to 2,500 tons a day, which means that if there were enough men to man the night shift through they would go over 4,000 tons a day, or upwards of 1,000 tons more than ever in the history of that colliery. Reserve is a larger colliery than Caledonia. It has three working slopes, and the management expect to achieve the same results there, and at Dominion Nos. 1, 2, 3, and at Bridgeport. The cost of running the collieries under one shift is about 33 per cent. less than on the old system.

STRIKE IN BALTIMORE.

Two Hundred Press Feeders and Help-
ers Walk Out.

Baltimore, Md., Nov. 21.—Two hun-
dred press feeders and helpers em-
ployed in about 50 of the job printing offices
went on strike today. The number
will probably be increased by the
pressmen, who will quit work in
sympathy with the others. The shops
in which union labor is employed are
the only ones interested in the strike.

SMOTHERED BY GRAIN.

Fate of a Laborer in a Toronto Elevator

Toronto, Nov. 21.—Thos. Allen, labor-
er, was smothered to death in a grain
bin in Sylvester's elevator, on the water-
front last night. Allen was loading the
bin from which the chute led and fell
asleep on a heap of barley. The chute
was opened, his legs were caught in the
section of falling grain, and 1,500
bushels of barley fell on him.

FOR TROUBLED WATERS.

France to Send a Cruiser to Colon to
Replace the Suchoi.

Paris, Nov. 21.—La Presse asserts that
the government has telegraphed the
French commander on the Indian
station to send another cruiser to re-
place the "Suchoi" which has left Colon
to convey the sick to the Island of Mar-
tinique.

cribbing that is more than useless, the
cost for construction being money simply
wasted, and which no foreman with prac-
tical knowledge would have put in. The
number of men employed at one time is
ridiculously small, some three or four,
with foreman at \$3 a day for about three
months, an arrangement to make the work
last as long as possible and the fore-
man's pay correspondingly high. This ap-
plies to Colwood district equally with our
own. It is always understood that the
work shall be divided amongst the taxpay-
ers as equally as possible, but it is always
the same team, principally the foreman's
relations. Now, this is, to say the least,
unfortunate. It is calculated that the
new system adopted at the request of
the people into bad repute; whereas if it
was fairly and honestly carried out, it
would be combined with economy. I hope
some others will give their views through
your valuable paper.

TAXPAYER.

MAN'S INHUMANITY TO MAN.

St. Paul, Nov. 21.—George Fielding, for
many years porter at the Diarnd, was found
lying in the public streets, therefore a
police officer must needs arrest him as
a "drunk" and take him to the police
station to throw him into a drunk-
ard's cell. It is a sad case, for the
man has for years suffered from a disease
which at times caused him to have most
terrible fits. In which he would be com-
pletely prostrated. The result will show
I am sure, that the poor fellow died in one
of these fits.

No good can come to the dead by animad-
verting on the facts. But if a proper prom-
ise is given to a statement of the cir-
cumstances, perhaps some valuable life
may hereafter be saved from that brutal
inhumanity which has in this province
characterized more than one arrest. This
is not the first instance. Let us hope it
will be the last.

GEO. A. STEWART POTTS.

HORSE TENDERS MUTINY.

Several Placed in Irons on Way to
South Africa.

Montreal, Nov. 21.—Advices received
here today from South Africa state that
a mutiny occurred among the horsemen
on board the Allan line steamship Sic-
ilian, which sailed from this port on Oc-
tober 13, for South Africa, with a cargo
of horses for the British army. The
officers of the ship quarrelled with the
men, and several of the leaders were placed
in irons and handed over to the mili-
tary authorities at Capetown.

NOTICE TO SHIPPERS.

Important Decision to Merchants in
British Columbia.

Montreal, Nov. 21.—The Canadian Pa-
cific and Grand Trunk today announced
circulars notifying shippers to the Pacific
coast that after December 31 next the
practice of allowing two or more shippers
to make shipments in one car, so as to
secure a single rate, will be discon-
tinued. Rule No. 2 of the Canadian joint
freight classification and No. 6 in West-
ern classification are to be enforced.

CATTLE FOR B. C.

Shipment From Ontario Made by Mr.
Hadwen.

Toronto, Ont., Nov. 21.—Eight ear-
loads of cattle directed by G. H. Had-
wen, secretary of the British Columbia
Dairyman's association in Ontario were
shipped West today. The cost is \$4,760.

HON. W. C. WELLS.

Leaves Montreal For British Columbia
in Few Days.

Montreal, Nov. 21.—Hon. W. C. Wells
is in the city. He leaves in a few days
for home.

Have You

Tried It?

Merscham Cut Plug smoking tobacco.
IT'S ALL RIGHT.

Sold Everywhere. 10c. per package.

Auction Sales

—BY THE—

CUTHBERT BROWNE

COMPANY, LIMITED.

We expect
to announce
in a few days
some impor-
tant Auction
Sales of

Excellent
Xmas Presents

Of an extremely useful nature.

THE CUTHBERT-BROWNE CO., LTD.

We transact all kinds of confidential busi-
ness, buy or sell merchandise or furnished
houses, pack or remove goods, advance
cash to purchase tickets and transporta-
tion for parties going away.

FRENCH MINERS.

Situation in Mining Centre Again Ap-
proaches Climax.

Paris, Nov. 21.—The situation in the
mining centres of France is again ap-
proaching a climax. The next day or
two will see a definite decision upon the
question of a general strike of the min-
ing centres and the publication of the
decision in the course of a day or so.

The result of the recent referendum
which gave a majority in favor of
the commission of the Chamber of
Deputies engaged in studying the de-
mands of the miners. It now appears
unlikely that the commission will satisfy
these demands and the extreme party
are endeavoring to force the hand of
the federation officials in favor of a strike.

Already a partial strike has broken out
in a coal field in the Department
of Nord, where a general meeting of
the miners voted yesterday in favor of the
strike, and sent a despatch to M. Cott
secretary of the federation calling upon
him to declare a strike immediately. M.
Cott declines to assume the responsibility
and announces the holding of a final
meeting of the miners on Friday.

The situation at the various
mining centres and the publication of
the decision in the course of a day or so.

In the meantime the committee of
the important Pas-de-Calais district pub-
lished a manifesto against a declaration
of a strike until the commission of the
Chamber of Deputies shall have con-
cluded its labors, and a similar feeling
is evidenced in other districts. Indi-
cations therefore go to show that the
strike even if declared will be partial,
and not general, and that it is doomed
in advance to failure.

The Belgian and British miners who
have been consulted, have refused to
consent to reduce the output, although
they have promised to give financial aid.
Consequently the opponents of the strike
predict that the object of the French
strikers will be defeated by the invasion
of foreign coal.
